<p>ITEM 1200</p> <p>RULES GOVERNING CARS HELD FOR PURPOSES OTHER THAN LOADING OR UNLOADING</p> <p>Items 1210 through 1235 will apply when cars are held for purposes other than loading or unloading, including cars which have been tendered for loading or unloading under the provisions of Items 1000 or 1140 and which are later reconsigned, diverted, reshipped, or released empty after having been ordered or appropriated, in which event tender of a car under such sections will govern in computing time under these provisions. Cars held subject to the provisions herein will not be subject to the Average Agreement Plan in Item 800.</p>	<p>ITEM 1220</p> <p>CARS OF GRAIN HELD IN TRANSIT FOR INSPECTION</p> <p>[17] PART A</p> <p>When cars of grain, seeds (field or grass), grain screenings, soybeans, hay, straw, corn husks or corn shucks, or pummies, unground, subject to official inspection or grading are held in transit and placed on inspection track(s) of this carrier at designated stations for inspection or grading, including reconsignment or other disposition, the free time will begin at the first 7:00 A.M. after the notice of arrival is sent or given to the consignee or party entitled to receive same or after bulletin has been posted where such practice is in vogue and will expire at the following 6:00 P.M.. A demurrage day under this item consists of a twenty-four (24) hour period computed from 6:00 PM.</p> <p>When the consignee has agreed with this railroad in writing to accept the bulletining of cars as due and adequate notice of arrival, the bulletins must be posted by 9:00 AM of each day showing receipt since the last previous bulletin. Any bulletin posted on a Saturday, Sunday or holiday shall for the purpose of calculating free time, be treated as posted as of 9:00 AM the first day thereafter which is not a Saturday, Sunday or holiday.</p> <p>In the application of this item, the term "held in transit" means after the cars have left the last loading station and before delivery at point of unloading. This item will not apply to cars held for inspection at the station where loaded, nor to cars billed direct to public team tracks, or to elevators, mills or other industries within the switching limits of the billed destination, and there inspected and delivery taken.</p> <p>The term official inspection referred to in this item is the taking or representative sample or samples and establishing the official grade of the contents of the car by competent and impartial authorities independent of the vendor or vendee and only in accordance with National, State, Board of Trade or Grain Exchange authorization or requirements except that on hay, straw, corn husks or corn shucks, or pummies, unground, the inspection may be as necessary or desired.</p> <p>(Continued on next page)</p>

A "reshipment" is the making of a new contract by which, under a new rate, the entire original lading, without being unloaded, is forwarded in the same car to another destination, or another place of delivery at the same destination, which requires a movement beyond the confines of the industry or the public delivery yard where the car has been originally delivered. When diversion or reconsignment is consummated on an order mailed, wired, or otherwise transmitted by the consignor to an agent of this railroad, or an agent of any railroad which has participated in the transportation transaction, such order will be considered as having been received after 7:00 AM on the date received. When an order is received for "reshipment" it shall contain all the necessary information to transport the shipment to its new destination; and, if the order for "reshipment" is transmitted by U.S. Mail, it shall be considered as having been received after 7:00 AM of the date received.</p>

<p>ITEM 1910</p> <p>ASSIGNMENT OF CARS</p> <p>Before specific cars are assigned to a shipper, the shipper must request in writing of originating road-haul carrier(s) assignment at least ten (10) days before their intended use of a specific number of cars.</p>	<p>ITEM 1920</p> <p>NOTIFICATION</p> <p>[15] Notice containing car initial and number when such cars are held at point of assignment awaiting orders for placement or appropriation shall be sent or given assignee. In event such cars cannot be reasonably accommodated at point of assignment, cars will be held at any available hold point and written notice will be issued also containing advice of such holding (See Note 1). An additional notice will not be required when car reaches point of assignment. When notice is sent or given as prescribed in this rule, and cars are later found to contain carload or less-than-carload freight, pallets and other devices, the notice tendered under Section 2 will serve as constructive placement notice as required in Item 545 of Section 1 of this tariff. Upon release from demurrage, subject car will revert to application of storage charges as provided in Item 1925 of this tariff, from the second 7:00 AM, excluding Saturdays, Sundays and holidays, without further notice.</p>

In determining these exemptions, the car descriptions listed in the Official Railway Equipment Register RER 6413-Series shall govern. Empty cars of private ownership are also exempted from the provisions of these rules.</p>	<p>[16] When cars subject to this section arrive at designated point of assignment, notice containing car initials and number shall be sent or given assignee. In event such cars cannot be reasonably accommodated at designated point of assignment, cars will be held at any available hold point and notice will be sent or given containing advice of such holding. An additional notice will not be required when car reaches designated point of assignment.</p> <p>Notification required under this item shall be sent or given by this railroad within twenty-four (24) hours (See Note 1), exclusive of Saturdays, Sundays and holidays, of arrival of car at destination or hold points.</p> <p>[16] Written confirmation of personal or telephone notification will be furnished to assignee when assignee has filed a written request with this railroad. A written record of personal or telephone notification, including required confirmation, shall be maintained by this railroad's agent.</p>
	<p>Nothing in this section will preclude this railroad from sending or giving notification on Saturdays, Sundays and holidays when it is in a position to do so.</p> <p>Note 1 - When the required notice is not sent or given within the prescribed twenty-four (24) hours after arrival, charges will be computed from the second 7:00 AM, exclusive of Saturdays, Sundays and holidays, following the sending or giving of such notice.</p> <p>Note 2 - When assignee utilizes an electronic or mechanical device to accept messages (either in written or oral form), notification left on such device will be considered as having been given to assignee.</p>

<p>ITEM 1925</p> <p><b>STORAGE CHARGE</b></p> <p>[22] No free time will be allowed on cars subject to this section, but they will be subject to a storage charge of \$5.00 per car per day, not subject to ex parte increases, to be computed from the second 7:00 AM, exclusive of Saturdays, Sundays and holidays following the sending or giving of notice as provided in Item 1920.</p> <p>[25] No free time will be allowed on cars subject to this section, but they will be subject to a storage charge of \$8.00 per car per day, not subject to ex parte increases, to be computed from the second 7:00 AM, exclusive of Saturdays, Sundays and holidays following the sending or giving of notice as provided in Item 1920.</p> <p>[16] No free time will be allowed on cars subject to this section, but they will be subject to a storage charge of \$10.00 per car per day or fraction of a day, to be computed from the second 7:00 AM, exclusive of Saturdays, Sundays and holidays, following the sending or giving of notice in Item 1920. The period of suspension under this item will be from the first 7:00 AM following the date on which interference began until the first 7:00 AM following expiration of the ninety-six (96) hour period immediately following resumption of operations (See Notes 1 and 2).</p> <p>[15] When it is impossible to load or to receive for loading empty cars assigned under the provisions of these rules because of cessation of operations for a period of five (5) consecutive days or more resulting from a strike, work stoppage, flood, high water or other interference at the plant of the assignee for which the empty assigned cars are held, the charges herein shall be suspended for the period of such interference with operations and an additional ninety-six (96) hours immediately following resumption of operations, provided that the assignee furnishes a written notice to the carrier at point of assignment within five (5) days, exclusive of Saturdays, Sundays and holidays after the date on which interference ceased, stating date and time interference began and ceased and the cause of such interference. For the purpose of applying this note, a cessation of operations beginning in one year and continuing uninterrupted into the following year will be considered one (1) cessation occurring in the year in which the interference began and the number of days in such cessation plus the ninety-six (96) hour period immediately following resumption of operations will also be considered as occurring in the year in which interference began. The days allowed in the cessations claimed must be consecutive from the beginning of such cessations.</p> <p>Note 2 - The cars which are placed on notice prior to and during any claimed shutdown period will be the only cars allowed the ninety-six (96) hours immediately following the resumption of operations.</p>
<p>ITEM 1930</p> <p><b>RELEASE OF CARS FROM ASSIGNMENT</b></p> <p>At such time as the assignee wishes to reduce the number of an assignment by one or more cars, assignee must notify the originating road-haul carrier(s) and originating switching line, in writing or confirmed in writing, and specify the effective date of release of such car or cars which must be at least one (1) or more days after date of such notice. The originating road-haul carrier(s) will have the prerogative of selecting the car or cars to be removed from the assignment. Storage charges prescribed by these rules will accrue on cars so selected until the effective date of release unless such cars are previously removed by the originating carrier(s) in which case storage charges will terminate on the date of such removal. However, no assignee will be permitted to release a car or cars from an assignment by oral or written notice until all shipper-owned appurtenances have been removed by assignee.</p>

<p>ITEM 1940</p> <p>CONDITIONS FOR RELIEF WHEN ASSIGNEE'S OPERATIONS PARTIALLY SHUTDOWN</p> <p>When a partial shutdown lasts five (5) or more consecutive days and results in a thirty (30) percent or more reduction in normal loading of assigned cars, storage charges as provided in Item 1925 will be adjusted for the period beginning with the first 7:00 AM following date and time the partial shutdown begins until the first 7:00 AM following resumption of operations (See Note 1) by reducing the amount of such charges by the percentage factor produced by the ratio of assigned cars loaded during the partial shutdown (projected to a thirty (30) day basis) to the total number of assigned cars loaded in the calendar month immediately prior to the month in which the partial shutdown begins; provided notice in writing which shows the anticipated date and time of the partial shutdown, the total number of cars in assignment and number of assigned cars anticipated to be loaded during the partial shutdown is furnished the carrier at point of assignment at least five (5) days, exclusive of Saturdays, Sundays and holidays prior to the partial shutdown (See Note 2). If assignee fails to send or give such notice within such five-day period, but presents it at a later date, the time allowed for the partial shutdown shall begin five (5) days, exclusive of Saturdays, Sundays and holidays, following receipt of the notice (See Note 2). However, no adjustment will be made unless assignee also presents a subsequent written notice within five (5) days, exclusive of Saturdays, Sundays and holidays (See Note 2), following cessation of such partial shutdown which shows the date and time the partial shutdown actually began and ceased and the shutdown period.</p> <p>Note 1 - Relief will be restricted to a maximum of two (2) partial shutdown periods in any calendar year, with the storage allowance not to exceed thirty (30) days per calendar year. For the purpose of applying this note, a partial shutdown beginning in one year and continuing uninterrupted into the following year will be considered one (1) partial shutdown occurring in the year in which it began, and the number of days in such partial shutdown will also be considered as occurring in the year in which the partial shutdown began. The days allowed in the shutdown periods claimed must be consecutive from the beginning of such shutdowns.</p> <p>Note 2 - If the notices referred to in this item are mailed via U.S. Mail, they shall be considered as having been received after 7:00 AM of the date received.</p>	<p>ITEM 1945</p> <p>CONDITIONS FOR RELIEF WHEN ASSIGNED CARS ARE FOUND TO HAVE MECHANICAL DEFECTS</p> <p>Relief will be granted from storage charges on an assigned car while held for repair of Federal Railroad Administration safety defects or other mechanical defects which make the car unsuitable for loading, from the time of actual discovery of the defect until car is again made available. If storage charges have been incurred on such car prior to the discovery of the mechanical defect, storage charges will resume from the first 7:00 AM following the sending or giving of notice to the assignee of the availability of the car for loading.</p> <p>ITEM 1950</p> <p>RAILROAD ERROR WHICH PREVENTS ACCEPTANCE, PROPER TENDER OF DELIVERY</p> <p>Under this item, storage charges will be assessed on the basis of the amount that would have accrued but for such error. Also, when for any cause but attributable to the assignee this railroad actually or constructively places assigned cars recently tendered ahead of assigned cars previously tendered, storage charges will be assessed on the basis of the amount that would have accrued had such cars been actually or constructively placed in the sequence they were ordered placed for loading (See Note).</p> <p>No allowance will be made for the delay in placing assigned cars ordered to a track, other than a public delivery track, used by two or more shippers, when such delay or interruption is attributable to such joint use of such track.</p> <p>Note - Cars actually or constructively placed for account of this railroad may not be commingled with cars actually or constructively placed for account of other railroads in computing run-around allowance.</p>
