<b>PROVISIONS GOVERNING RECEIPT AND DELIVERY OF CARS OF FREIGHT</b>	<b>PROVISIONS GOVERNING RECEIPT AND DELIVERY OF CARS OF FREIGHT</b>
<p>ITEM 500</p> <p align="center"><b>APPLICATION</b></p> <p>Rules and charges applicable on receipt and delivery of cars of freight under conditions described in this tariff.</p>	<p>ITEM 530</p> <p align="center">[1]</p> <p align="center"><b>CHARGES FOR DELAY IN ACCEPTING SERVICE</b></p> <p>When receipt or delivery of a car or cars as provided in Items 510 and 520 cannot be accomplished in continuous movement (Notes 2 and 3, Item 540), at the carrier's ordinary operating convenience (Notes 1 and 3, Item 540), because of interruption, interference or any other condition caused by the shipper or consignee, the carrier will arrange for receipt or delivery under the following provisions:</p>
<p>ITEM 510</p> <p align="center"><b>RECEIPT AND DELIVERY AT PRIVATELY-OWNED SIDETRACKS OR INDUSTRIAL TRACKS</b></p> <p>Except as otherwise provided in Item 530, cars of freight moving at carload switching rates published in tariffs or other instruments will be delivered on and removed from privately-owned side tracks or industrial tracks near and connecting with the carrier's tracks without additional charge, provided there are no conditions which make it unsafe for the carrier's locomotive to operate over such tracks, or that prevent the carrier from receiving or delivering cars at its ordinary operating convenience (See Notes 1 and 3, Item 540).</p>	<p>A. If it appears that the delay will be temporary in nature, the locomotive will be held at the nearest available location and the service completed when conditions permit. Fifteen (15) minutes free time will be allowed for such temporary delay. Following such free time, a charge of \$91.00 for each fifteen (15) minutes, or fraction thereof, for which the locomotive is delayed will be assessed in addition to all other rates and charges. Charges will be assessed in accordance with Paragraph (B) when delays encountered during a locomotive trick or shift, aggregate more than fifteen (15) minutes.</p>
<p>ITEM 520</p> <p align="center"><b>RECEIPT AND DELIVERY AT LOADING AND UNLOADING LOCATIONS</b></p> <p>Except as otherwise provided in Item 530, cars covered by Item 510 will be received and delivered at loading and unloading locations on tracks designated by the industry within the industrial plant site without any additional charge when such service can be ordinarily performed in continuous movement (Notes 2 and 3, Item 540), at the carrier's ordinary operating convenience (Notes 1 and 3, Item 540), provided the locomotives in general use for switching in the vicinity of the plant site can do so safely.</p>	<p>B. If, after a reasonable period of delay, the obstruction or condition preventing completion of service has not been removed or eliminated, the carrier may, at its option, withdraw its locomotive and place the car or cars on a hold or other available track or tracks within or without the industry plant site. Charges for the delay encountered shall be computed in accordance with Paragraph (A). Subsequent movement by carrier's locomotive of the car or cars from the hold or other track or tracks to actual point of delivery will be subject to switching charge of \$173.00 per car.</p>
	<p>C. For the purpose of applying the provisions of Paragraph and (B), time shall commence to run from the minute the conductor determines that the shipper or consignee is unable to accept service.</p>
	<p>D. On cars under special detention rules and charges, the same detention rules and charges will be applied as govern in connection with the line-haul rates.</p>
